

ASTRONAUTS CONFIRMED...

"Providing information affluence to those in the remotest of regions has been my life's dream. Africa Code Week and their partners are doing just that (...)This exciting event will spark the interest and curiosity of students all over the world to be creative, connect to the world beyond their community, and learn the tools that will empower them with a successful career path."

NOAH SAMARA

Founder and CEO of Yazmi, the world's first satellite-enabled tablet, Africa Code Week Patron

AN AWARD-WINNING INITIATIVE

March 8, 2016: SAP - Africa Code Week **wins** the 'Education of the Future' award from the World Communications Forum in Davos.

Innovation. Entrepreneurialism. Courage. August 2016: Africa Code Week got nominated for the Hasso Plattner Founders' Award.

August 2016: Africa Code Week is **finalist** for the Judges' Choice Award in the Corporate Initiative Category - celebrating organizations that create economic opportunity in the digital era.

"SAP has achieved remarkable success with Africa Code Week events." Adrian Schofield, Manager of Applied Research, JCSE

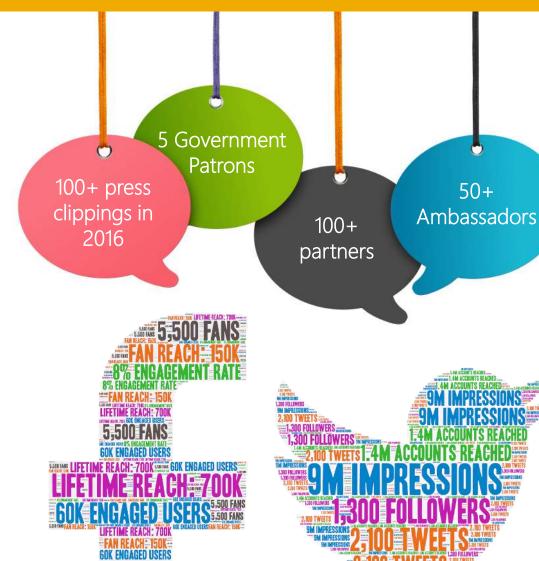

"Historic.

Arguably the first initiative of its kind on the continent."

Savious Kwinika, Journalist

"An opportunity to marvel at what the future holds." Bill McDermott, CEO, SAP

OVER 100 PARTNERS ALREADY

3 KEY PARTNERS

15 STRATEGIC PARTNERS

Supporting the initiative across several countries

100+ NETWORK PARTNERS

Supporting the initiative within a specific country

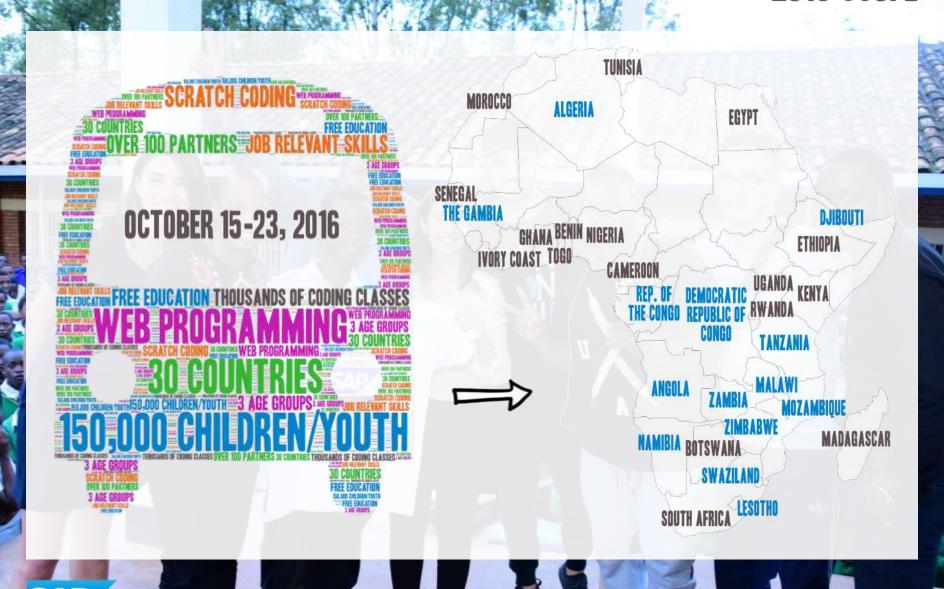

2016 SCOPE

A SUSTAINABLE IMPACT

LONG-TERM (NEXT 10 YEARS)

Further widen access to coding workshops & resources to **5M+** children and youth

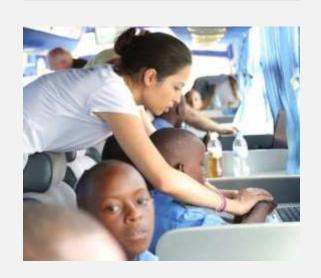

MID-TERM (3-5 YEARS)

Expand coding initiatives to more African countries:

- -Engage 1M+ children and youth
- -Equip 200,000+ science teachers with all relevant resources

SHORT-TERM (NEXT 3 YEARS)

Introduce 500,000 kids & youth to coding across 30 African countries.

3 DIFFERENT AGE GROUPS

8-17: LEARN CODING WITH

A free application developed by the MIT to simplify the face of coding for the young generation. 14M projects shared on scratch.mit.edu to date.

18-24: WEB PROGRAMMING MASTERCLASS

Offering an introduction to Web Technologies (HTML, CSS, Javascript, PHP, SQL), this workshop gives students a good understanding of a typical website architecture and teaches them to create a fully operational, mobile-friendly website.

CODING CURRICULUM

FOR YOUTH:

FOR TEACHERS:

TRAIN-THE-TRAINER WEB PROGRAMMING

FREE ONLINE COURSES openSAP

- Free of charge
- 4-6 hours of learning
- Enroll anytime
- Record of Achievement earned at the end

For teachers, parents and guardians of children aged 8 to 11: https://open.sap.com/courses/acw1-2

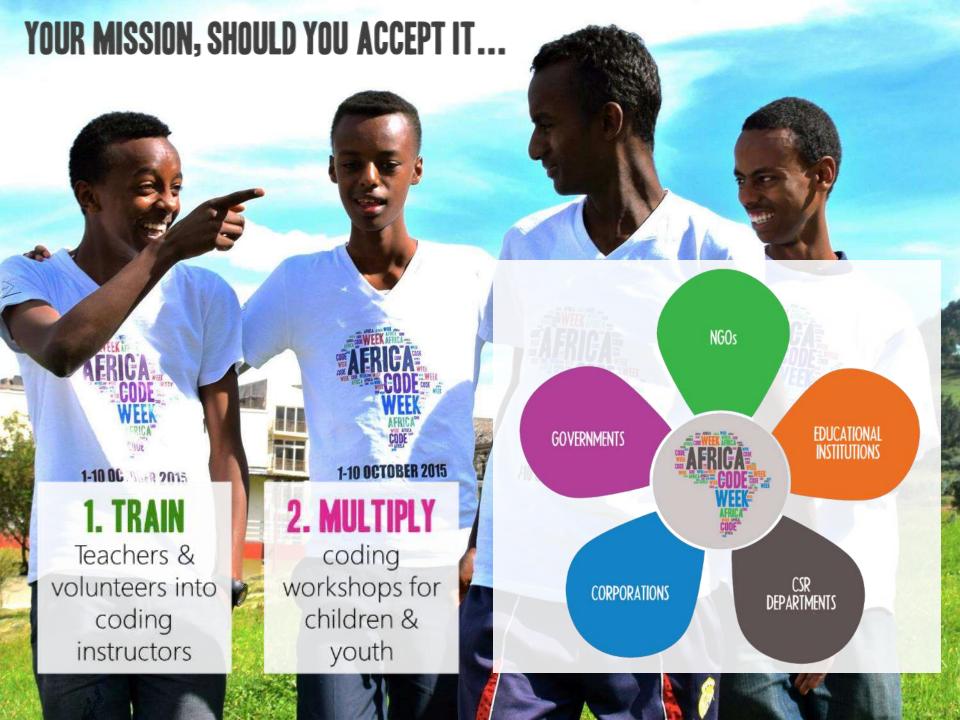

'TEACHING PROGRAMMING TO YOUNG LEARNERS'

For teens: https://open.sap.com/courses/acw2-1

'TEENS GET CODING!'

Enroll today! All materials are also accessible offline for those with limited Internet access.

- Promote coding as part of your digital agenda
- Spread the word through schools
- Host your own coding events and help more to take place
- Source Africa Code Week Ambassadors
- Provide trainers

CONTRIBUTION

BENEFITS

- Foster new skills and talents in a creative way
- Join an exceptional, global network of leading companies, opinion leaders, science centers & nonprofits
- Leverage our network, infrastructure, communications tools & open source learning platform to promote events
- Measure event impact on your country

- Host events
- Provide trainers
- Leverage resources to invite underprivileged kids/youth to participate to coding workshops
- Report on event attendance for success measurement

CONTRIBUTION

- Get your trainers trained for free!
- Leverage our network, infrastructure, communications tools & open source learning platform to organize and host events
- Engage your community in a unique, continent-wide initiative

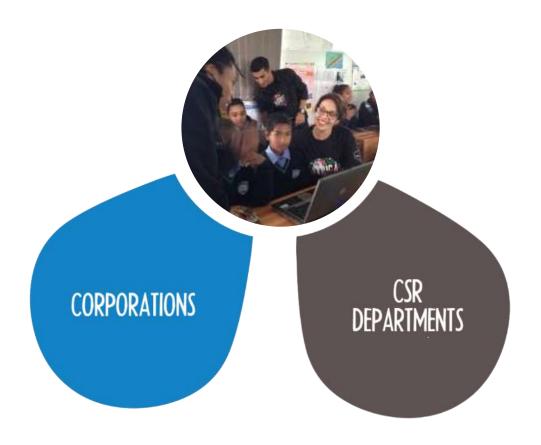

BENEFITS

CONTRIBUTION

BENEFITS

- Spread the word
- Host events
- Invite teachers to participate
- Provide trainers
- Promote our free, open source learning platform & resources
- Report on events for success measurement
- **Get** your trainers trained for free!
- Leverage our network, infrastructure, communications tools & open source learning platform
- Get the best teachers on board!
- Engage pupils/students and parents in a unique, continentwide initiative

BUILD YOUR BRAND!

Position your company as a key actor on the tech scene, dedicated to fostering e-skills & talents amongst African youth.

TAKE YOUR CSR AGENDA...

to the next level of employee engagement and social impact with employees and partners taking creative action towards building Africa's future.

JOIN AND ADDRESS...

a pan-African & global network of leading companies, opinion leaders, science centers and nonprofits.

NETWORK PARTNERSHIP: COUNTRY FOCUS

- Empower employees into Master Coding Instructors and/or ACW Ambassadors in selected country
- Host Train-The-Trainer sessions to empower thousands of adults as coding teachers in their respective communities
- Engage employees, customers & partners as skilled volunteers in coding workshops
- Sponsor Coding buse(es)
- Include your promotional goodies in our Bags4kids
- Multiply social media followers through our Facebook
 & Twitter channels

STRATEGIC PARTNERSHIP: CONTINENT-WIDE REACH

- Same benefits as listed above, expanded across as many countries as you want, plus:
- Get featured interviews on our ACW blog & newsletter
- Get featured as a Strategic Partner in a media interview
- Get communications / editorial support from our Project Team

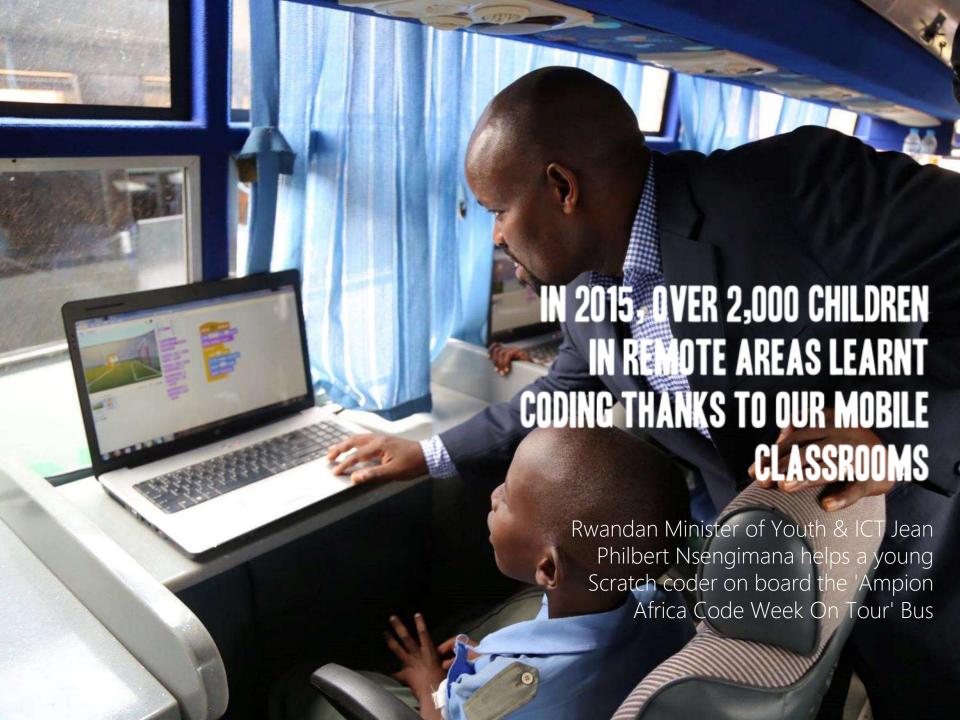

REACHING CHILDREN IN REMOTE AREAS

- Coding class on wheels: ICT equipped buses tour rural areas to bring free coding workshops to children.
- ACW Master Instructors welcome children on board for a 60-minutes Scratch workshop.
- 2,000+ children engaged on board the "Ampion Africa Code Week on Tour" bus in South Africa & Rwanda last year.

OPPORTUNITY

- Brand the bus with your company logo
- Name bus "(Your Company) Africa Code Week on Tour"
- Engage your own skilled volunteers as Coding Instructors on board.
- Relay team's journey on social media

Refugee children break-dancing in front of the RDB Coding Bus in Rwanda – April 2016

WHAT DO I NEED TO HOST A WORKSHOP?

A GROUP OF PEOPLE WILLING TO LEARN

Pupils, students, coworkers, friends, employees. Remember: 2 is a group already!

ONE OR MORE TEACHERS OR FACILITATORS

No need to be professional programmers!

A PLACE TO BE AT

Don't try to stuff too many people in a windowless room because nobody enjoys coding with a headache.

COMPUTERS WITH BROADBAND INTERNET

Make sure they already have Scratch installed and provide participants with instructions on how the installation can be done on their own devices.

CHECKLIST FOR A SUCCESSFUL WORKSHOP

1. VENUE

- A quiet, ventilated area equipped with PCs (i.e.: classroom, meeting room, library, etc.)
- Room setup shall facilitate group exchange and team work.

2. HARDWARE & SOFTWARE

- PC workstations (the Scratch offline version allows you to run a workshop without Internet access).
- ☐ 1 mouse per workstation.
- ☐ 1 video projector per instructor.

3. SCRATCH SOFTWARE — OFFLINE VERSION

- ☐ You can download it here: https://scratch.mit.edu/scratch2download/
- Scratch must be installed on every single PC before the workshop starts. Tutorials are available here:

https://scratch.mit.edu/projects/editor/?tip_bar=home (clic on the globe icon in the top left corner to choose your language. Translated tutorials will then appear on your right)

On the openSAP platform, a free MOOC called 'Teaching programming to young learners' (specifically designed for Africa Code Week) will be available again in 2016.

4. DURATION

☐ 60 minutes is the ideal duration for such beginner workshops.

5. RATIOS

- □ 1 PC for 2 kids.
- ☐ 1 main instructor presenting Scratch with the video projector.
- Additional trainers/coaches scattered across the room to assist and guide children (typically 1 coach for 6/8 kids depending on their level).

6. ICING ON THE CAKE...

- ☐ Plan a little snack break!
- Request your Africa Code Week T-shirts and notepads!

Ambassadors are your local anchors for Africa Code Week event orchestration, questions and support.

Feel free to reach out to them to get started on hosting your own coding workshops or simply get introduced to other interested schools / organizations. They are here to help you engage as many children and youth as possible in your community!
